FROM THE SALE MANAGER

The Cluaran Shorthorn Herd, owned by Mr. Chas. Robson, R.R.#1, Oshawa, was founded in 1958 with the purchase of a few foundation females from the herds of C.H. Mumford, G.R. Whittington, W.L. Morrison, M.A. Gilroy, Hugh John Miller, and T. Beardmore. The present herd is mostly home-bred, uniform in quality & colour, the result of using three good hersires on the best females selected in each of several years crops of calves. Two red herd bulls came from Mr. S.G. Bennett's good Scotalie herd at Georgetown, the first being Scotalie Nimbus, by Calrossie Prefect, and out of Scottish Buttercup 46th, bred in Scotland. Scotalie Turriff, by Scotalie Navarre, and out of Bapton Clipper Lisbeth, was the second herdsire owned; and he sired a good group of the younger cows.

Present herdsire is the white Moira Valley Wynn, bred by Dr. Bateman of Belleville, sired by Louada Paradox, a dark roan son of Bapton Constructor, and out of a Louada Ranger dam. "Wynn" is active, quiet, dehorned, a sure breeder -- a long, trim bull whose calves prove he has worked well in the Cluaran breeding program. All of the bred females carry his service.

The decision to disperse the Cluaran herd was made only in early April; and while the cattle are in thrifty breeding condition, they have not been fitted for sale at all. The herdbull ran with the cows after November 1st, 1969, and all females will be pregnancy checked. For a proven herd bull; 40 cows, most with August - September- October calves at foot by Wynn and rebred to him; and 14 yearling daughters, I recommend you plan on being with us on Friday, June 5th; and take in the Central Ontario Zone Shorthorn Sale the following day at Massey Ferguson Farm, Milliken, only 20 miles west of Cluaran Farm.
